

You are invited....

Please join Burr's Principal Jason Bluestein for a book club discussion of the non-fiction book *The Smartest Kids in the World* by Amanda Ripley. *The Smartest Kids in the World* tells the stories of three American exchange students who spend one year attending school in South Korea, Poland, and Finland. Contrasting the school systems in these countries with America's public school system, *The Smartest Kids in the World* is part expose, part study, and part narrative. It raises some provocative questions about how to best educate students for our 21st century world.
