This week's words: REVIEW (to view/print our current complete word wall list, visit our web page.)

- Our **2nd Grade Thanksgiving Snack Feast** will take place on Tuesday. You should have received an information sheet with your child's snack assignment and all the specifics, last week. (A copy is posted on our class webpage.) Following our Snack Feast we'll participate in our **Annual 2nd Grade Turkey Calling Parade**.... Always a memorable 2nd grade event. Turkey Callers will come home with the kids on Tuesday afternoon. (My apologies, in advance for any excessive turkey-calling in your home in the days ahead. ☺)
- This week, in the limited **math** time we have, we will continue with our focus on place value.

- In **reading**, we'll wrap up our retelling unit by thinking about the most important event in a story and giving text evidence of the event's importance.
- Last week we donned safety glasses and gloves and cracked open rocks to explore the inside, think about the hardness of different rocks, and the different ways in which rocks break (cleavage). We also used Moh's scale of hardness to test hardness by trying to scratch rocks with our fingernails and with a steel nail.
- We'll be taking a little break from our regular narrative writing to do a little non-fiction writing based on rock research. Each child will research a particular rock and create a page for our 2RO ROCKS! book. 😊
- Finally, I want to wish you all a wonderful Thanksgiving and safe travel. See you next week! 😊
