Health Services Programs

- Emergency first aid care for illnesses and injuries
- Vision and postural screening for students in grade 9
- Administration of medications
- Review of health assessments and immunization status for students
- Development of Individual Health Care Plans for students with chronic health problems
- Participation in interdisciplinary team meetings
- Health counseling and referral for students, parents and staff
- Protection of school population through emergency planning and communicable disease control

The Health Office at FLHS is currently staffed daily from 7:30AM to 2:30PM by two full-time registered nurses. The goal of the nursing program is to facilitate and promote optimal learning for all students and act as a resource for students, parents and staff. The nursing staff encourages parental input regarding medical problems or concerns to help provide the best educational experience for your child. Please call during the above hours if we can be of any assistance.
