

F.W.H.S. News Release - Woodworking

On Tuesday, June 10, 2014, the Fairfield Warde High School Woodworking program will hold the annual student project exhibit from 7-8:30 PM in the Wood Shop (A-6) at Fairfield Warde High School. The event is open to the public. On display will be the projects and furniture that were built by Warde students throughout the year. All levels of the Woodworking program, beginner through advanced, will be represented. Prior to the evening exhibit, the projects will be displayed in the Student Showcase throughout the day for students and staff. They will then be reviewed by a panel of judges who will award ribbons and certificates for outstanding workmanship, quality and achievement. The evening exhibit is a proud moment for the woodworker students.

The woodworking facility is located at the rear of the building where there is plenty of parking.
