

turbidity - secchi disk = cloudiness

#8, 11 abiotic - non-living

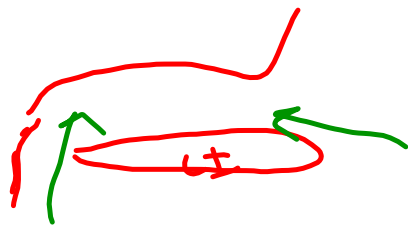

Salinity	tide out	salt ↓
22-35 ppt	tide in	salt ↑

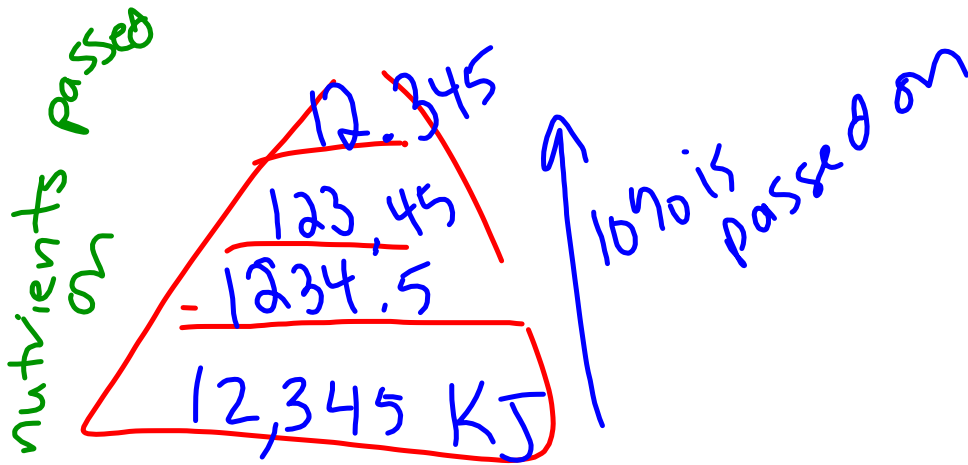

tides - covered by H₂O or not *prevent from drying out*
 weather - seasons
 temperature 32°-73°F

DO = dissolved O₂

3 rivers: Housatonic, CT, Thames
fresh

Salt from

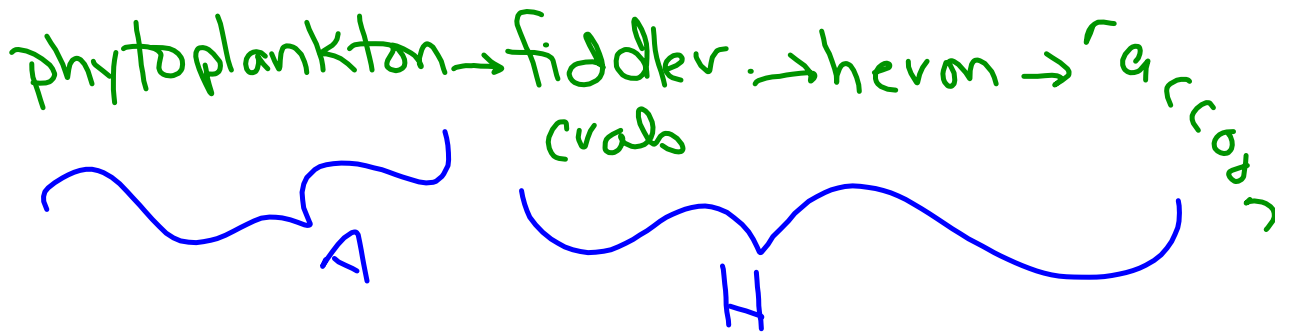

detritus - organic matter
 dead/decaying
 decomposers = bacteria
 recycle nutrients

Autotroph - make own, producer

Heterotroph - eat, consumer

Trophic levels ↑ (herbivore, omnivore, carnivore)

Kingdom

Homo sapiens

Phylum

Canis lupus
