Dental Health Program

Public Health Nursing
100 Mona Terrace

Tel: (203)256-3150
Fax: (203)256-3172

TO: Parent/Guardian
FROM: Health Department Town of Fairfield

The Town of Fairfield Health Department has a School Dental Health Program that provides oral health screenings, teeth cleaning, cavity risk assessments and topical fluoride treatments by a Registered Dental Hygienist in our schools. The program is available for all students that have Husky insurance, or that meet income guidelines. Additionally, limited funding for uninsured eligible students is available for cavity detecting x-rays, and dental care by participating dentists for problems such as cavities.

Applications are available in English, Spanish, Arabic and Portuguese.

***If you would like to apply for this program, please print one of the attached applications, and return it completed, to your child's school nurse as soon as possible.**
