

# Problem of the Week

## Grade K

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Jessica planted 10 sunflower seeds. Only 8 seeds grew into flowers.  
How many seeds didn't grow?

Here's how I know:

## Grades 1-2

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Bill needs \$30.00. He worked 5 hours on Monday earning \$2.00 an hour. He worked 2 hours on Tuesday earning \$3.00 an hour. How much more money does he need?

Here's how I know:

# Grades 3-5

Name: \_\_\_\_\_

Class: \_\_\_\_\_

Aunt Betty planted 24 tomato plants. When  $\frac{1}{8}$  of them died, she planted two more. How many good tomato plants does Aunt Betty have now?

Here's how I know:

# Solutions

Grades 1-2:

\$14.00

$$5 \times \$2.00 = \$10.00$$

$$2 \times \$3.00 = \$6.00$$

$$\$10 + \$6 = \$16$$

$$\$30 - \$16 = \$14.00$$

Grades 3-5:

23

$$1/8 \text{ of } 24 = 3.$$

$$24 - 3 = 21.$$

$$21 + 2 = 23$$
