**PUBLIC SCHOOLS**

June 5, 2015

Dear Mill Hill Parents,

For the past several years, Mill Hill has required that students entering grades 3-6 complete a summer math packet. This has served to provide students with continued math practice over the summer months, and to provide a comprehensive review before beginning the next school year. One way to ensure continued success for your child is to practice the concepts and skills learned in school during the summer vacation. Throughout the school year, your child was assigned basic facts practice for homework, and we encourage you to continue this important practice. Keep in mind this can be done through computer games available online, using flash cards, or even orally as you are travelling to your favorite vacation spot! A few notes:

- Summer math work for students entering grades 3, 4 and 5 is available online through the Fairfield Public Schools website: <http://fairfieldschools.org/> Simply scroll down to the bottom of the screen and click on the link entitled "Summer Math Packets".
- Packets for students entering grades 3, 4 and 5 will be due back to your child's classroom teacher in the fall.

We thank you for your support as you continue to encourage your child's mathematical growth over the summer months.

Thank you! Have a safe and enjoyable summer!

Sincerely,

Kevin Chase

Principal

Nancy Meehan

Math Science Teacher
