

FAIRFIELD PUBLIC SCHOOLS

INTEROFFICE MEMORANDUM

TO: All Principals
FROM: Tom Cullen
DATE: July 30, 2015
SUBJECT: Asbestos Management Plan

A requirement of the Federal Asbestos Hazard Emergency Response Act (AHERA) and Public Act 91-260, Asbestos-Containing Materials in Schools, is that all workers, students and their legal guardians and other building occupants are informed at least once per school year about asbestos-related activities and the availability of the management plan. To this end, I have enclosed a copy of a past notice, which was included in a school newsletter. I would suggest that this notice be included in your first publication of the new school year and that you also post the notice on your school bulletin board.

I would also suggest that you include in your notice a statement to the effect that we employ the services of an outside consultant for our asbestos-related work and continue to perform periodic surveillance and necessary response actions as required.

If you have any questions or comments, please advise.

PUBLIC NOTICE

Each school building's asbestos containing materials management plan is available for review at the school office.
