Recommended Materials:

- * Calculator with square root and exponent functions

Request by LMC -

- * Earphones/Earbuds

Welcome to Crew 7M!

Summer Letter

August 2013

Together we can!

Dear Parents/Guardians and New Seventh Grade Students,

We'd like to welcome you as new members of Crew 7M at Roger Ludlowe Middle School! We are sending you this letter because we believe sincerely in the importance of maintaining a positive and constructive link between home and school. By doing so, we ensure that this year will prove to be a terrific learning experience for all involved.

Everything that we will do this year, both inside the classroom and on any field trips we may take, is designed with the goal of creating a top-notch and "best practice" driven educational experience for our students.

As a crew we feel that it is of utmost importance that all members— parents, teachers and students alike— keep open lines of constructive communication throughout the year. We find that this ensures that students are continually learning and living up to the high expectations that we set in our classrooms.

Developing a healthy, strong work ethic and self-driven attitude towards learning is a primary goal for this school year. Of course, if we all work together, learning can be fun and rigorous simultaneously.

In order to prepare for the beginning of the new school year:

- On the first day of school, in addition to the having the required materials listed, each child should bring in a recent photo of herself/himself no bigger than 4x 6 for our birthday boards.
- The Summer Math Packet (now online) is optional. However, all students are expected to review their basic math facts. Students will definitely benefit from extra practice.
- The Summer Reading List has been sent home and is now online.
- Infinite Campus Web Address: <https://campus.fairfieldschools.org/campus/portal/fairfield.jsp>
If you do not have access to this site email reghelp@fairfieldschools.org for assistance.

Again, in order for each child to have a successful year, parents/guardians, teachers and students need to work together. Good collaboration requires trust. Therefore, we would like to express the importance found in supporting our instruction, homework, and discipline efforts. We will update grade reports and assignment expectations on Infinite Campus as one way to keep you informed about your child's progress. Additionally, all students will have virtual access to their H drive next year in order to allow working on assignments at home.

We are confident that with school and home working together, each and every student can have her or his most successful year yet!
