

Roger Ludlowe Middle School
Family and Consumer Sciences

Dear Parent/Guardian,

During this quarter, your child is taking Family and Consumer Sciences (FCS). Part of this program consists of cooking and eating! It is our goal to make this an enjoyable and safe educational experience for all students.

The Board of Education, cafeteria staff, and FCS teachers are continuing efforts to address the ever-growing incidences of food allergies, some very severe, among students in our school. Please take a moment to let me know if your child has **ANY** food allergies or concerns. By knowing this information, lessons can be planned which reduce the chances of exposing a child to any ingredient that may cause an allergic or unpleasant reaction. In addition, it would be helpful to know, if there are any symptoms that I should look for or be aware of and if there is a specific course of action to be taken in the event of a reaction. We will add this information to the student medical alert communication we receive from the nurse. Thank you for taking the time to provide us with this very important information. Please note that the students are not permitted to cook or eat in the Foods Lab until we receive this information form signed by a parent.

Sincerely,

Lori Kempton

Family Consumer Science Teacher

PLEASE PROVIDE THE FOLLOWING INFORMATION:

Student's Name: _____ **Period** _____

() My child has NO known food allergies or concerns. _____

Parent/Guardian Signature & Date

() My child has the following food allergies or related food issue _____

Parent/Guardian Signature & Date

Symptoms & Recommended Course of Action
