These assessment scores are most useful when combined with other information about your child. The observations conducted by teachers, along with multiple assessment scores, provide a profile of your child's reading and math achievement. The teacher is the best source of information about your child's progress. As always, parents and caregivers can provide continual support for children by enjoying time reading, talking about books, and engaging in authentic problem-solving at home. These activities will help your child to build a love of learning.
