## Art

(Grades PreK, K, 1, 2)

### Art with Your Favorite Picture Book Authors

This class is designed to study various stories by well-known children's authors: Eric Carle, Jan Brett and Cynthia Rylant. Students will study three picture book authors and learn about their different writing styles. After each book is read aloud, students will then focus on the book's story elements and by using different art techniques will create a project to go with the book. If you love to read and enjoy being creative with arts and crafts this class is for you!

## Science

(Grades 1, 2)

### Inventors Adventure

**Do you know a mini inventor?**

This class is developed through Makers Faire, which is all about having a day of creative fun through tinkering, exploration and innovation. Build a catapult one day and a marble run the next. Design your own board game or a plastic cup blaster. Each day will provide an opportunity to collaborate, design and create.

*Teacher - Cara McConnell*

**Session I or Session II**      10:30 a.m. - 11:30 a.m.  
11:30 a.m. - 12:30 p.m.

**Course Code - S10**

**Materials Fee: \$5.00**

(Grades K, 1, 2)

### Lego Racers

**Are you ready for a racing adventure?** This class is designed to have a perfect mixture of fun and learning, using LEGO® race cars. Students will have the opportunity to explore new adventures, learn the basic concepts of physics and discover their hidden talents as they design, build and race their own creations. Every day there will be a different car to build and race.

*Teacher - Cara McConnell*

**Session I or Session II**      8:30 a.m. - 9:30 a.m.  
9:30 a.m. - 10:30 a.m.

**Course Code - S11**

## Math

(Grades 1, 2)

### Math Quest: Growing, Going and Graphing

Have you ever wondered why math is important, or where math is used in everyday life?

Join us this summer at Math Quest!

Growing, Going and Graphing is filled with activities, projects, crafts, experiments and games that will bring math to life. During these two weeks we will experience where math

is used in the real world while practicing important math skills. Topics to explore will include weather, gardening, cooking, money and measuring lengths. After Math Quest, you'll impress your friends and classmates with your problem solving skills and understanding of math facts! Who knew math could be so much fun!

*Teacher - Nicole Artese*
