

# Ms. Hoyt's Kindergarten Class

10/21/2016

## Reminders

10/26 and 10/27 are early dismissal days. We dismiss at 1:40. I will be holding parent conferences those days. Reminder slips will come home next week.

We have been talking a lot about what it means to be kind and to be a good friend. The kids shared some really wonderful examples. We truly have a great group of kids.

Our Fall Kindergarten Centers were so much fun! The kids learned about apples, pumpkins, fall leaves, and bats. Thank you to the moms who helped us out!

## Reading

- We started reading groups this week during our reading workshop. I meet with small groups of students and give them each a book that we read together. They can then practice reading it on their own during independent reading time.

## Writing

- We have been making sure to include who, what, and where in our true stories.
- We learned how to add speech bubbles to our stories!
- The students are doing a great job using checklists to make sure their writing is complete.

## Math

- We just completed our first math unit about counting, subitizing, and comparing numbers.
- Next week, we will begin learning about geometry!
