

TECHNOLOGY EDUCATION'S

Manufacturing/Construction Technology

Teacher
Mr. Hellthaler

What We Do In Manufacturing/Construction

Students:

- work individually or in teams.
- use hand tools, small and large power tools.
- manufacture products of their own design.
- work with wood, plastic and various materials

You Design The Project Of Your Choice

You Work Independently

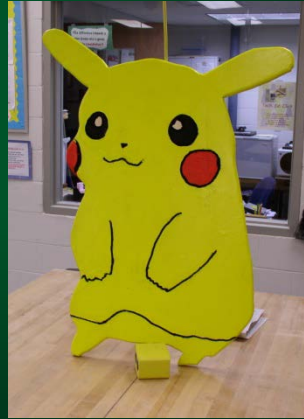

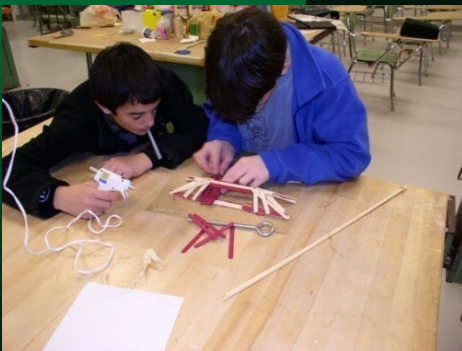

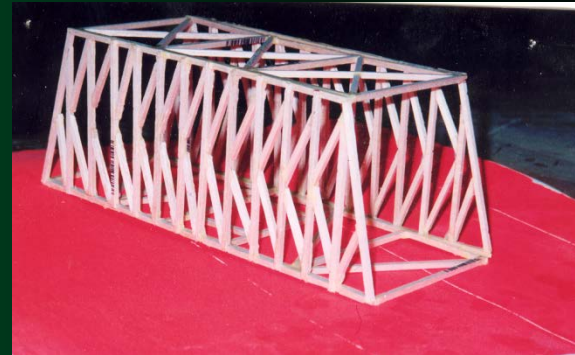

Lots of Project Possibilities

Create All Kinds Of Interesting Things

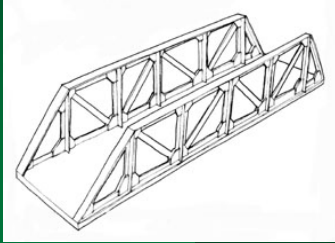

Students Also Work In Teams

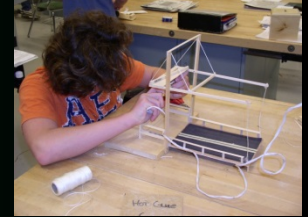

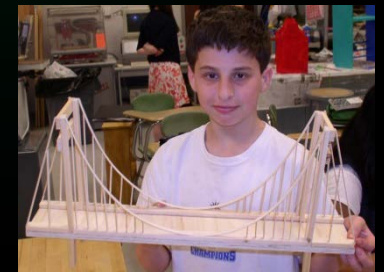

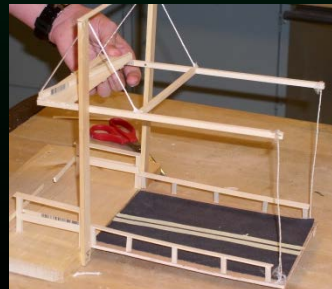

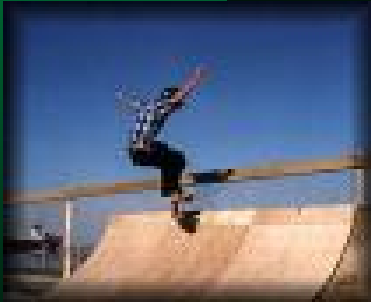

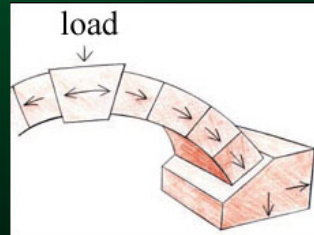

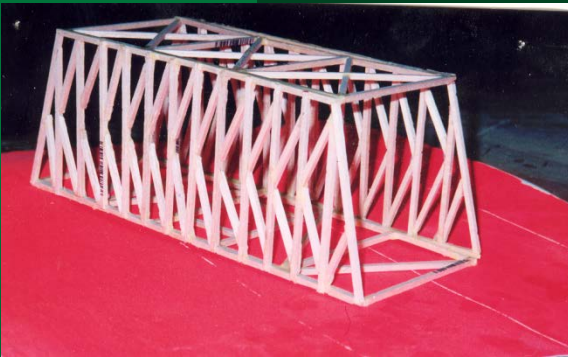

In Teams You Will Build, a Model and Report On A Structure That You Created

Students have

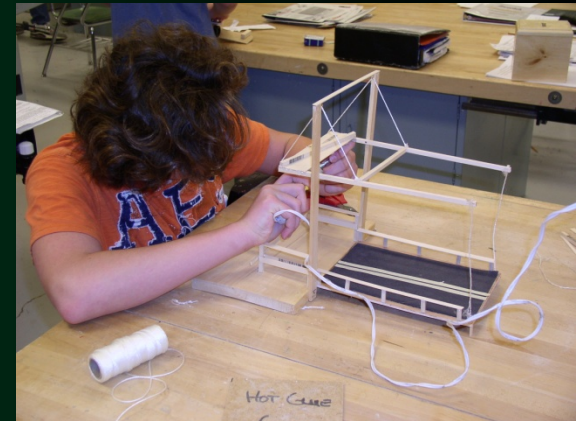

designed and made
their own bridges,
rails and quarter
pikes then they
tested them for
strength.

Learn How Buildings are Designed and Constructed

Learn How Products are Manufactured

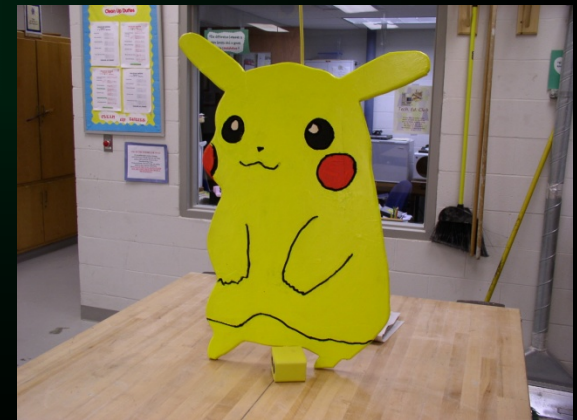

Lots of Eighth Grade Projects Possibilities...

Eighth Grade Projects

**SO SIGN UP
FOR**

MANUFACTURING/CONSTRUCTION

You'll have a great time Creating, Designing, Building and Finishing all kinds of things!

Remember you'll have about 10 weeks as an eighth grader. You can even use our spindle lathes to create a bat, pens, drum sticks and more.

The possibilities are endless.....

Remember!

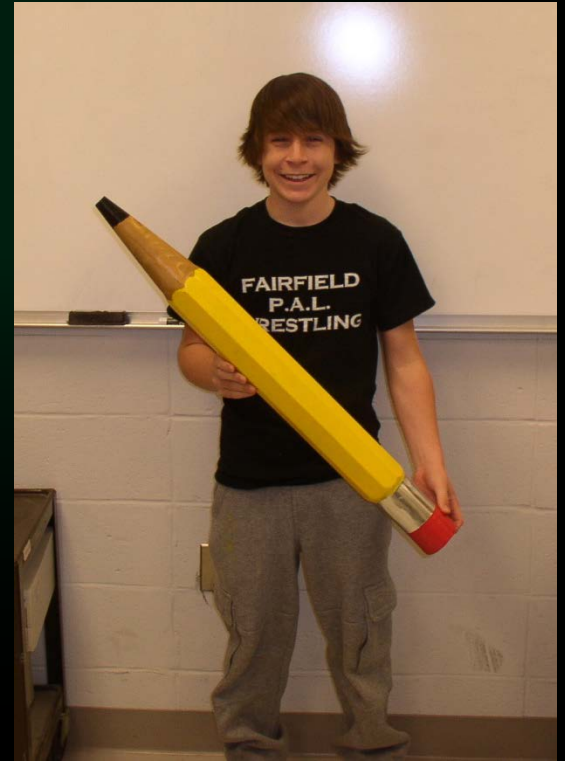

As an 8th Grader you get.....

More Time-

More Material-

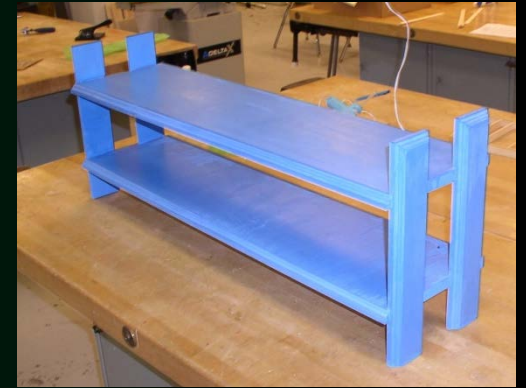

More Involved Projects

Just for fun 😊

See You Next Year!
