

A TMS student in need was recently presented with a new calculator, complete with all of the advanced functions that will carry the student through high school. The gift was given anonymously, to honor the life of Billy Therriault, a student attending Roger Ludlowe Middle School, whose legacy of love and courage is an inspiration to his many friends. <http://www.legacy.com/obituaries/ctpost/obituary.aspx?n=william-scott-therriault-billy&pid=186678857&fhid=4716>. I appreciate all of the support at TMS from our families, staff members, and friends; and am very thankful to work in a community that cares about the individuals in need.
